# List of Figures

|     |                            |   |
|-----|----------------------------|---|
| 1.1 | Some figure text . . . . . | 1 |
| 1.2 | Some figure text . . . . . | 2 |
| 1.3 | Some figure text . . . . . | 2 |
| 1.4 | Some figure text . . . . . | 3 |

# My list of definitions

|     |                                  |   |
|-----|----------------------------------|---|
| 1.1 | A definition . . . . .           | 2 |
| 1.2 | Some other definition . . . . .  | 2 |
| 1.3 | Yet another definition . . . . . | 2 |
| 1.4 | More definitions . . . . .       | 2 |
| 1.5 | More definitions . . . . .       | 3 |

# List of Code Samples

|     |                                |   |
|-----|--------------------------------|---|
| 1.1 | An algorithm . . . . .         | 2 |
| 1.2 | Another algorithm . . . . .    | 2 |
| 1.3 | Even more algorithms . . . . . | 3 |
| 1.4 | Even more algorithms . . . . . | 3 |

# A chapter

Figure name: 'New Figure Name'  
Figure float name: 'New Figure Name'  
Table name: 'Table'  
Table float name: ''  
Definition name: 'First Definition Name'  
Definition float name: 'First Definition Name'  
Code name: 'code'  
Code float name: 'code'

Look at the example in New Figure Name 1.1.

|                      |
|----------------------|
| FIRST EXAMPLE FIGURE |
|----------------------|

**New Figure Name 1.1:** Some figure text

Figure name: 'Redefined Figure Name'  
Figure float name: 'Redefined Figure Name'  
Table name: 'Table'  
Table float name: ''  
Definition name: 'First Definition Name'  
Definition float name: 'First Definition Name'  
Code name: 'code'  
Code float name: 'code'

Now, look at Redefined Figure Name 1.2.

SECOND EXAMPLE FIGURE

**Redefined Figure Name 1.2:** Some figure text

Here we have a definition:

**First Definition Name 1. A definition**

And another:

**First Definition Name 2. Some other definition**

Remember, from First Definition Name 1, that something. . .

Remember, from Redefined Definition Name 2, that something else. . .

**Redefined Definition Name 3. Yet another definition**

Here is code 1.1:

This is an algorithm

**code 1.1:** An algorithm

And here is Redefined Code Name 1.2:

This is another algorithm

**Redefined Code Name 1.2:** Another algorithm

Now we have changed language to Norwegian.

And we have figur 1.1 and Redefined Definition Name 1 and Redefined Code Name 1.1.

THIRD EXAMPLE FIGURE

**Figur 1.3:** Some figure text

And

**Redefined Definition Name 4. More definitions**

And

Code, code, code

**Redefined Code Name 1.3:** Even more algorithms

Figure name: 'Figur'  
 Figure float name: 'Redefined Figure Name'  
 Table name: 'Tabell'  
 Table float name: "  
 Definition name: 'Redefined Definition Name'  
 Definition float name: 'Redefined Definition Name'  
 Code name: 'Redefined Code Name'  
 Code float name: 'Redefined Code Name'

Now, we have switched back to US English.

And we have Redefined Figure Name 1.1 and Redefined Definition Name 1 and Redefined Code Name 1.1.

FOURTH EXAMPLE FIGURE

**Redefined Figure Name 1.4:** Some figure text

And

**Redefined Definition Name 5. More definitions**

And

Code, code, code

**Redefined Code Name 1.4:** Even more algorithms

Figure name: 'Redefined Figure Name'  
 Figure float name: 'Redefined Figure Name'  
 Table name: 'Table'  
 Table float name: "  
 Definition name: 'Redefined Definition Name'  
 Definition float name: 'Redefined Definition Name'  
 Code name: 'Redefined Code Name'  
 Code float name: 'Redefined Code Name'
